

FireFox Gold Corp.
Condensed Interim Consolidated Financial Statements
For the three months ended March 31, 2022 and 2021
(Expressed in Canadian dollars)

Notice of No Auditor Review

These unaudited condensed interim financial statements have not been reviewed by the auditors of the Corporation. This notice is being provided in accordance with Section 4.3 (3) (a) of National Instrument 51-102 - Continuous Disclosure Obligations.

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The accompanying unaudited condensed interim financial statements of FireFox Gold Corp. are the responsibility of the Company's management and are prepared in accordance with International Financial Reporting Standards and reflect management's best estimates and judgment based on information currently available.

Management has developed and maintains a system of internal controls to ensure that the Company's assets are safeguarded, transactions are authorized and properly recorded, and financial information is reliable.

The Board of Directors is responsible for ensuring management fulfills its responsibilities for financial reporting and internal controls through an audit committee, which is comprised primarily of non-management directors. The Audit Committee reviews the financial statements prior to their submission to the Board of Directors for approval.

FireFox Gold Corp.

Notes to the Condensed Interim Consolidated Financial Statements

For the three months ended March 31, 2022 and 2021

(Unaudited - Expressed in Canadian dollars)

1. Nature of operations and going concern

FireFox Gold Corp. (the “Company” or “FireFox”) was incorporated under the *Business Corporations Act* (British Columbia) on June 16, 2017. The Company’s registered place of business is located at 650 - 1021 West Hastings Street, Vancouver, British Columbia, V6E 0C3, Canada. The Company is in the exploration stage with respect to its mineral property interests, and its primary activity is exploring for economic gold mineralization in Finland.

The unaudited condensed interim financial statements were prepared on a going concern basis with the assumption that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. The Company has working capital of \$ \$173,560 (December 31, 2021 – \$934,121) has incurred significant operating losses and negative cash flows from operations during the period and will require additional financing in order to continue operations. While the Company has been successful in obtaining funding in the past through the issuance of additional equity, there is no assurance that such funding will be available in the future. An inability to raise additional funds would adversely impact the future assessment of the Company as a going concern. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company’s ability to continue as a going concern.

The Company is dependent upon its ability to finance its operations and exploration programs through financing activities that may include issuances of additional debt or equity securities. The recoverability of the carrying value of exploration projects and, ultimately, the Company’s ability to continue as a going concern, is dependent upon the existence and economic recovery of reserves, the ability to raise financing to complete the exploration and development of the properties, and upon future profitable production or, alternatively, upon the Company’s ability to dispose of its interest on an advantageous basis, all of which are uncertain. The financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations. Such adjustments can be material.

On March 11, 2020, the World Health Organization declared CoVID-19 a pandemic. In mid-March 2020, federal, regional, and local authorities in Canada, the United States, and other nations began to significantly restrict the ability of people to leave their homes and carry out normal day-to-day activities. These measures will have a significant, negative effect on the economy of all nations for an uncertain period of time. The duration and impact of CoVID-19 is unknown at this time and it is not possible to reliably estimate the impact that the length and severity of these developments will have on the financial results and condition of the Company in future periods. Management believes that the Company has adequate resources to maintain core operations and planned exploration programs over the next twelve months, however, the Company recognizes that operations and exploration expenditures may change, and additional financing may be required. While the Company has been successful in obtaining funding in the past through the issuance of additional equity, there is no assurance that such funding will be available in the future.

2. Summary of Significant accounting policies

Basis of compliance

These unaudited condensed interim financial statements have been prepared in accordance International Accounting Standard (“IAS”) 34 Interim Financial Reporting, are in accordance with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board (“IASB”) and they are consistent with interpretations of the IFRS Interpretations Committee (“IFRIC”).

FireFox Gold Corp.

Notes to the Condensed Interim Consolidated Financial Statements

For the three months ended March 31, 2022 and 2021

(Unaudited - Expressed in Canadian dollars)

2. Summary of significant accounting policies (continued)

The accounting policies adopted in these unaudited condensed interim financial statements are based on IFRS in effect at March 31, 2022. The disclosures which follow do not include all disclosures required for the annual financial statements. These unaudited condensed interim consolidated financial statements should be read in conjunction with the audited financial statements and notes thereon for the period ended December 31, 2021 and December 31, 2020 and the unaudited condensed financial statements for the quarter ended March 31, 2021.

Basis of measurement

These unaudited condensed interim financial statements have been prepared on the historical cost basis. In addition, these unaudited condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

Details of the group

In addition to the Company, the unaudited condensed interim financial statements include a subsidiary. Subsidiaries are corporations over which the Company is able, directly or indirectly, to control financial and operating policies, which is authority usually connected with holding majority voting rights. Subsidiaries are fully consolidated from the date on which control is acquired by the Company and are de-consolidated from the date that control by the Company ceases. Inter-company transactions and balances are eliminated upon consolidation.

As at March 31, 2022, the Company has one subsidiary, FireFox Gold Oy.

Significant accounting estimates and judgments

The preparation of these unaudited condensed interim financial statements require management to make estimates and judgments that affect the reported amounts of assets and liabilities at the date of the unaudited condensed interim financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates and judgments, which, by their nature, are uncertain. The impact of estimates and judgments is pervasive throughout the unaudited condensed interim financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates, or changes to judgments, are recognized in the period in which the estimate is revised and may affect both the period of revision and future periods.

Firefox Gold Corp.

Notes to the Condensed Interim Consolidated Financial Statements

For the three months ended March 31, 2022 and 2021

(Unaudited - Expressed in Canadian dollars)

3. Risk management and financial Instruments

Financial instruments are agreements between two parties that give rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Categories of financial assets and financial liabilities

The carrying values of the Company's financial instruments are classified into the following categories:

Financial instrument	Category	March 31 2022	December 31 2021
Cash	FVTPL	\$ 551,190	\$ 1,579,171
Accounts receivable	Amortized cost	\$ 150,000	\$ -
Accounts payable and accrued liabilities	Amortized cost	\$ 511,866	\$ 705,873
Due to related parties	Amortized cost	\$ 240,679	\$ 210,570

The carrying values of these instruments approximate their fair values due to their short term to maturity.

The Company's risk exposure and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit losses are measured using a present value and probability-weighted model that considers all reasonable and supportable information available without undue cost or effort along with the information available concerning past defaults, current conditions and forecasts at the reporting date. IFRS 9 requires the recognition of 12 month expected credit losses (the portion of lifetime expected credit losses from default events that are expected within 12 months of the reporting date) if credit risk has not significantly increased since initial recognition (stage 1), and lifetime expected credit losses for financial instruments for which the credit risk has increased significantly since initial recognition (stage 2) or which are credit impaired (stage 3). There are no expected credit losses with respect to the Company's financial instruments held at amortized cost.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market risk consists of interest rate risk, foreign currency risk and other price risk. As at March 31, 2022, the Company is not exposed to significant market risk.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations as they become due. The Company's approach to managing liquidity risk is to attempt to ensure that it will have sufficient cash or credit available to meet liabilities when due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating any investing and financing activities, and by maintaining its lending arrangement with a related party. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments.

All of the liabilities presented as accounts payable and accrued liabilities are due within 90 days of March 31, 2022.

FireFox Gold Corp.

Notes to the Condensed Interim Consolidated Financial Statements

For the three months ended March 31, 2022 and 2021

(Unaudited - Expressed in Canadian dollars)

4. Equipment

Equipment is stated at cost less accumulated depreciation and accumulated impairment losses. The cost of an item of property and equipment consists of the purchase price, any costs directly attributable to bringing the asset to the location and condition necessary for its intended use and an initial estimate of the costs of dismantling and removing the item.

Depreciation is provided at rates calculated to write off the cost of equipment, less estimated residual value, using the straight-line method over the following expected useful lives:

- Vehicles - 4 years
- Machinery and Equipment - 4 years
- Furniture and fixtures- 4 years

The following table provides a summary of the equipment at March 31, 2022:

				March 31, 2022	December 31, 2021
	Cost	Amortization	Accumulated amortization	Net book value	Net book value
Equipment and machinery	\$ 58,654	\$ 3,064	\$ 12,811	\$ 45,843	\$ 29,239
Furniture and fixtures	39,719	1,838	11,768	\$ 27,951	29,788
Vehicles	75,418	3,489	22,344	\$ 53,074	56,563
Total	\$ 173,791	\$ 8,391	\$ 46,923	\$ 126,868	\$ 115,591

5. Mineral properties

(a) Riikonkoski (East and West), Jeesiö (including Jeesiö West) and Ylöjärvi (including Oks) projects

On August 1, 2017, the Company entered an option agreement with Magnus Minerals Ltd. ("Magnus"), a company incorporated under the laws of Finland, whereby Magnus granted FireFox an exclusive right and option to earn and acquire a 100% interest in each of the Riikonkoski (East and West), Jeesiö (including Jeesiö West) and Ylöjärvi (including Oks) projects (the "RJY Properties"), which are located in Finland and were, at the time, owned by Magnus (the "RJY Option Agreement"). Since originally entering into the option agreement, certain extensions have been formally granted by Magnus to commitment dates under the RJY Option Agreement.

Pursuant to the RJY Option Agreement, FireFox has completed the following commitments:

- I) issued 6,000,000 common shares to Magnus
- II) incurred \$3,767,376 in exploration expenditures on the RJY Properties, and
- III) made cash payments to Magnus totaling \$250,000

On January 26, 2021 FireFox Gold Corp. completed its earn-in requirements with prepayment of the final \$100,000 outstanding and exercised the option for a 100% interest in the Jeesiö Gold Project in Lapland, Finland. There are no further commitments to be satisfied under the RJY Option Agreement.

FireFox Gold Corp.

Notes to the Condensed Interim Consolidated Financial Statements

For the three months ended March 31, 2022 and 2021

(Unaudited - Expressed in Canadian dollars)

5. Mineral properties (continued)

The RJY Option Agreement also provides that upon FireFox exercising the Option, FireFox will be obligated to pay Magnus an additional payment, equal to the value of 1,000 troy ounces of gold, within 12 months of the commencement of commercial production. In addition, under the RJY Option Agreement, FireFox granted Magnus a 1.5% net smelter return royalty ("NSR"), which may be reduced to 1% by the payment to Magnus of the value of 1,000 troy ounces of gold within 90 days of publishing a positive feasibility study. Pursuant to the RJY Option Agreement, Magnus has agreed to provide mineral exploration services to FireFox. Magnus is a related party (Note 7).

(b) Mustajärvi project

On December 14, 2017, the Company entered into an agreement whereby it paid a total of €30,000 and issued 400,000 common shares to a Finnish junior exploration company, Aurora Exploration Oy ("Aurora"), to acquire a 100% interest in the Mustajärvi Project. Aurora retains a 1% Net Smelter Royalty ("NSR") on all metals sold from the Mustajärvi Project, 50% of which can be repurchased by FireFox for USD \$500,000. The repurchase right is exercisable at any point within 180 days of the Company's receipt of a positive feasibility study for the Mustajärvi Project.

FireFox Gold has expanded the original Mustajärvi Project by applying for two exploration permits, which cover the continuation of the Mustajärvi shear zone towards the southwest from the Mustajärvi permit (Mustajärvi West) and extend the property holding east of the Mustajärvi permit (Mustajärvi East).

(c) Seuru Properties

On August 21, 2018, the Company entered an option agreement with Magnus (the "Seuru Option Agreement") to acquire a 100% interest in approximately 46,039 hectares of mineral exploration reservations in the Central Lapland Greenstone Belt of northern Finland. Since originally entering into the option agreement, certain extensions have been formally granted by Magnus to commitment dates under the Seuru Option Agreement. Magnus will retain a 1.5% NSR royalty on production from the Seuru Properties, 0.5% of which can be purchased for 1,000 troy ounces of gold. Magnus is a related party (Note 7).

As the exploration costs on Seuru are increasing, the Company has broken out costs starting in 2021 to more accurately identify those attributable to the Northern Properties (see the Mineral Exploration Expenses table below).

Pursuant to the Seuru Option Agreement, FireFox has completed the following commitments:

- i) issued 1,500,000 shares,
- ii) made cash payments to Magnus totalling \$150,000, and
- iii) incurred \$1,788,191 in mineral exploration on the Seuru Properties (includes Northern Properties)

The following commitments remain to be satisfied under the Seuru Option Agreement:

- i) making a cash payment to Magnus of \$50,000 by October 5, 2022

Firefox Gold Corp.

6. Share capital

(a) Authorized

The Company's authorized share capital consists of an unlimited number of common shares without par value.

(b) Equity financings

On April 28, 2021 the Company closed a Private Placement that raised total gross proceeds of \$3,000,000 by issuing 16,666,664 units at a purchase price of \$0.18 per unit. Each unit consists of one common share of the Company and one half of one common share purchase warrant, with each whole warrant being exercisable to acquire one additional common share of the Company at an exercise price of \$0.27 per share for a term of two years from the date of issuance. The Company paid to qualified finders \$67,533 in cash finder's fees and issued 312,655 finders warrants exercisable at \$0.18 for 2 years from the date of issuance.

During the year ended December 31, 2021, 4,741,000 warrants were exercised and converted into common shares for total proceeds of \$ 687,500. An additional 250,000 warrants for proceed totaling \$30,000 received in December 2021 were converted into common shares after December 31, 2021.

During the year ended December 31, 2021, 1,260,000 stock options were exercised and converted into common shares for total proceeds of \$168,000.

During the three months ended March 31, 2022, 5,254,166 warrants were converted to common shares for total proceeds of \$691,000, of which \$30,000 were received before December 31, 2021. An additional 150,000 warrants for total proceeds of \$12,000 received during Q1 2022 were exercised and converted to common shares after March 31, 2022.

During the three months ended March 31, 2022, 5,000 stock options were exercised and converted into common shares for total proceeds of \$500 received before December 31, 2021.

(c) Stock options and warrants

The Company has implemented an incentive share option plan (the "plan") which is subject to approval by the shareholders at the next general meeting. Under the plan, the Company may issue options to purchase common shares, at prices determined by the Board of Directors on the date of award, for periods of not more than five periods. Share options awarded under the plan vest immediately upon plan-approval at the next general meeting. Subsequent to plan-approval, options awarded will vest immediately upon issue unless vesting is modified by the Board of Directors at the time of grant. The total number of common shares that may be reserved for issue under the share option plan is limited to 10% of the number of issued common shares.

The Company uses the Black-Scholes option pricing model in order to calculate a value for share options issued to employees. The Black-Scholes option pricing model was developed for use in estimating the fair value of share options that have no vesting provisions and are fully transferable. Also, option pricing models require the use of estimates and assumptions, including expected volatility rates. The Company uses expected volatility rates which are based upon historical experience and/or market comparables. Changes in the underlying assumptions used in the Black-Scholes option pricing model could materially affect the fair value estimates.

FireFox Gold Corp.

Notes to the Condensed Interim Consolidated Financial Statements

For the three months ended March 31, 2022 and 2021

(Unaudited - Expressed in Canadian dollars)

6. Share capital (continued)

(c) Stock options and warrants (continued)

Stock options transactions during the period ended March 31, 2022 and year ended December 31, 2021 are as follows:

	Number of options	Weighted average exercise price
Outstanding December 31, 2020	6,285,000	\$ 0.15
Awarded during the year ended December 31, 2021	2,800,000	0.29
Exercised during the year ended December 31, 2021	(1,260,000)	0.13
Expired during the year ended December 31, 2021	(190,000)	0.16
Outstanding December 31, 2021	7,635,000	\$ 0.20
Exercised during the three months ended March 31, 2022	(5,000)	0.10
Outstanding March 31, 2022	7,630,000	\$ 0.20

The following is a summary of share options outstanding and exercisable at March 31, 2022:

Expiry date	Number of options	Exercise price
October 5, 2022	1,000,000	\$ 0.10
August 7, 2024	1,240,000	\$ 0.15
August 26, 2025	2,140,000	\$ 0.15
December 1, 2025	450,000	\$ 0.25
January 25, 2026	300,000	\$ 0.21
November 9, 2026	2,500,000	\$ 0.30
Total	7,630,000	\$ 0.20

The fair value of stock options awarded during 2021 was estimated on the dates of award using the Black-Scholes option pricing model with the following assumptions:

	2021
Risk-free interest rate	0.34%
Expected volatility	143%-154%
Expected lives	5 years
Estimated forfeiture rate	-

The average fair value of stock options awarded during the year ended December 31, 2021 was \$0.23.

No stock options were granted during the three months ended March 31, 2022. During the three months ended March 31, 2022, 5,000 stock options were exercised and converted into common shares for total proceeds of \$500 received before December 31, 2021.
