

VANCOUVER, BC – (**Sept 26, 2017**) – Silverstone Resources Corp. ("Silverstone" or the "Company"), an unlisted reporting issuer in British Columbia and Alberta, has changed its name to FireFox Gold Corp. ("FireFox").

Silverstone was spun out of Anacott Resources Corp. ("Anacott") as a wholly owned subsidiary in July 2017 (See Anacott news release dated July 28, 2017). Silverstone later entered into an option agreement with Magnus Minerals Ltd. (see Silverstone news release dated August 2, 2017) whereby it has the right to acquire a 100% interest (subject to a 1.5% NSR royalty) in approximately 60,000 hectares of exploration reservations in Finland.

In recognition of its focus on Finland, and in particular on the Central Lapland Greenstone Belt in the north of the country, the Company changed its name to FireFox Gold Corp. The word FireFox comes from a literal translation of the Finnish word for the Aurora Borealis – revontuli, meaning "fox's fire." Finnish legend has it that the fox runs so fast across the snow that his tail makes sparks, which rise into the heavens and are seen as the Aurora.

The Company and its CEO Mr. Carl Lofberg are based in Finland and its management offices are split between Finland and Vancouver. Most of FireFox's technical team resides in Finland while its CFO Mr. Andrew MacRitchie is based out of Vancouver. The Company's board of directors is currently comprised of: Patrick Highsmith, Carl Lofberg, and Joe Mullin.

About FireFox Gold Corp.

FireFox is a new non-listed reporting issuer in British Columbia and Alberta focused entirely on gold exploration in Finland. The Company has entered into an option agreement with Magnus Minerals Ltd., a private prospect generator company in Finland, through which it has an option to acquire 100% interest in three projects (subject to a NSR royalty) that currently encompass approximately 60,000 hectares. In order to complete the option, the Company must invest CAD \$2.5 million in exploration on the properties and make cash payments to Magnus of CAD \$250,000 over a three year period (See Silverstone news release dated Aug 2, 2017).

Finland is one of the top mining jurisdictions in the world as indicated by its ranking 5th in the 2016 Fraser Institute Survey of Mining Companies. Having a strong mining law and long mining tradition, Finland remains underexplored for gold. Recent exploration results in the country have highlighted its prospectivity, and FireFox is proud to have a Finland based CEO and technical team.

On behalf of the Board of Directors

“Carl Lofberg”
Chief Executive Officer
