About FireFox Gold Corp.

FireFox is a non-listed reporting issuer in British Columbia and Alberta focused entirely on gold exploration in Finland. The Company has entered into an option agreement with Magnus Minerals Ltd., a private prospect generator company in Finland, through which it has an option to acquire 100% interest in three projects (subject to a NSR royalty) that currently encompass approximately 60,000 hectares. In order to complete the option, the Company must invest CAD \$2.5 million in exploration on the properties and make cash payments to Magnus of CAD \$250,000 over a three year period (See Silverstone Resources Corp. news release dated Aug 2, 2017).

Finland is one of the top mining jurisdictions in the world as indicated by its 5th ranking in the 2016 Fraser Institute Survey of Mining Companies. Having a strong mining law and long mining tradition, Finland remains underexplored for gold. Recent exploration results in the country have highlighted its prospectivity, and FireFox is proud to have a Finland based CEO and technical team.
